

TEAM LONDON

London Climate Action Week Briefing

Wider London messaging and a calendar of Team London events can be found on the [London & Partners](#) website.

1. London Climate Action Week showcases one of the world's leading green innovation ecosystems

- London Climate Action Week brings together businesses, investors, policymakers and innovators working to accelerate the transition to net zero – attracting 100,000+ global attendees at 1,300+ events across the city.
- London combines ambitious climate policy with one of the world's strongest technology ecosystems, creating the conditions for green innovation to thrive.
- The Mayor's ambition to make London a net zero-carbon city by 2030 is helping drive investment innovation and behaviour change.
- London's strengths in AI, quantum, data and climate technology are creating new opportunities across the green economy.

2. London is Europe's leading destination for climate tech investment

- London is Europe's leading climate tech hub and continues to attract international investors, venture capital and impact funds.
- Climate tech startups raised \$2.1bn in 2025, plus a \$571m raised across 41 deals in the first half of 2026.
- London attracted more climate tech funding rounds than any other global city in 2025, with 150 deals.
- London climate tech companies have raised \$7.6bn over the past three years.

3. London brings together the talent, innovation and partnerships to scale climate solutions

- London combines top universities, diverse talent and one of Europe's largest technology ecosystems.
- 180+ accelerators and incubators, alongside a strong network of trade bodies and industry partners.
- Businesses can collaborate with customers across government, major corporates and consumers who are driving demand for sustainable solutions.
- London's wider tech ecosystem creates opportunities where climate technology converges with AI, mobility, energy and smart cities.

4. London Climate Action Week reflects the strength of London's green ecosystem

- London Climate Action Week is one example of how London brings together businesses, investors, government and academia to showcase London's green innovation ecosystem.
- Whether investing, expanding or launching, London provides the foundations to develop and scale green innovation.
